

TO: Dr. Laurie Hunter, Superintendent
FROM: Mike Mastrullo, CCHS Principal
DATE: February 12, 2020
SUBJECT: MatLab License Donation

Stephen Valentine, a parent of a CCHS student, would like to donate a [MatLab](#) license to CCHS, totaling \$530.19.

MatLab is a programming platform designed specifically for engineers and scientists that both teachers and students would benefit from using. Mr. Valentine will also come in and assist us with training on how to use it.

Money-Back Guarantee

If you are not completely satisfied with your purchase, call within 30 days for a full refund.

Academic Licensing

MathWorks is pleased to offer MATLAB®, Simulink®, and other MathWorks products at reduced prices to degree-granting educational institutions. The use of products licensed to institutions at Academic License pricing is restricted to on-campus computing facilities that are used solely in support of classroom instruction and research activities of students, faculty, and staff.

Institutions cannot use the products for commercial purposes. Research and development divisions and centers of universities, government agencies, and other not-for-profit organizations do not qualify for Academic License pricing. MathWorks offers reduced prices to degree-granting educational institutions as a service and asks your help in ensuring that the practice is not abused.

Licensing Options

Academic Use

Individual: The Individual license is intended for use by a single named user. The products can be activated on up to four different computers, provided that the products are only accessible to and used by that single named user. A named user may not use a program on more than two computers simultaneously.

Designated Computer: The Designated Computer license is intended for use on a single, designated computer, provided the products are operated from that computer's console by one licensed user at any given time.

Concurrent: The Concurrent license is intended for use by a specified number of concurrent users to run the product on any computer that is connected to a single FlexNet® license manager. Installation of the products is limited to institution-owned computers or computers personally owned by faculty, research, and academic staff.

Classroom Use

Classroom licenses are restricted for use in on-campus teaching labs used solely for classroom instruction of students. Course instructors can use a copy of the software for course preparation only. Use of the products for any other purposes, such as research by faculty and staff, is not allowed. The Classroom licenses require a minimum quantity of 10 and offer a choice between two license options: Designated Computer or Concurrent.

License Term

Annual licenses provide the right to use the software for a fixed duration, and MathWorks Software Maintenance Service is included in the license fee. To ensure uninterrupted service, you may renew your license prior to the conclusion of the license term. Otherwise the license and Software Maintenance Service will expire at the end of the term period.

Perpetual licenses provide the right to use the software indefinitely, and the first year of MathWorks Software Maintenance Service is included in the initial purchase price. After the initial 12 month period, an annual fee is required to renew your Software Maintenance Service.

MathWorks Software Maintenance Service

The first year of Software Maintenance Service is included with new product licenses. You can continue uninterrupted service in subsequent years by renewing your subscription annually.

MathWorks Software Maintenance Service includes:

- The latest updates to your MATLAB and Simulink products – with releases twice a year
- Worldwide technical support from specialized engineers
- Online offerings such as MATLAB Mobile, MATLAB Online, and MATLAB Drive

Note:

- An active subscription is required to purchase add-on products.
- If your subscription lapses, renewal at a later date will incur fees for the forward service period, any applicable back maintenance fees for the lapsed period, and a reinstatement fee of 25% of the annual cost of Software Maintenance Service.

For more information, see mathworks.com/services/maintenance.

Ineligible Programs

Not all programs are eligible for deployment, compilation, distribution, or web access. See a list of ineligible programs at: mathworks.com/products/ineligible_programs.html.

Additional Fees

The fees for the license are determined based upon the country where all licensed user(s) are principally located. Additional fees may apply to a transfer of the license, or the principal location of any licensed user, to another country.
