Re: Concord Middle School Project, Concord MA

To: Concord Middle School Building Committee

The Town of Concord utilizes proprietary equipment for the structural stormwater pre-treatment equipment to provide enhanced storm water quality prior to groundwater infiltration. The following manufacturers and systems have been determined to be specified as proprietary items:

Category	Brand	Series/Model
Stormwater Treatment (Water quality)	Rain Guardian	Rain Guardian Turret Rain Guardian Bunker

It would be in the best interest of the Town to utilize these manufactures for ease of use, ease of maintenance and ability to provide robust pre-treatment greater than the minimum 44% required by the MassDEP Stormwater Handbook. A Rain Guardian independent study indicates at least a 65% Total Suspended Solids (TSS) removal rate.

If you have any questions or concerns regarding this matter, please contact our office at your earliest convenience.
